

# St Patricks Day Parade Sensory St

The 17<sup>th</sup> of March is St Patricks Day. I am going to watch the parade from a special area called Sensory St.

This area will not be very noisy but if it gets too noisy we will be able to leave.

We suggest that you park on this side of Town and walk to Sensory St from here – ie down the hill beside the Garda Barracks and then over past the courthouse to Sensory St

## St. Patrick's Day Parade

Drogheda

March 17th

**SENSORY STREET**

ST. PATRICK'S DAY

ST. PATRICK'S DAY

*Drogheda Festivals*

This is the Map showing where Sensory St is

This is the main area for Sensory Street.

There will be flags and decorations up on the day of the Parade.

If I do not like noise or crowds we can stand at the back where it is less crowded.

This is also part of Sensory Street. We can stand on the Path on either side of the road.

There will be people in yellow T-Shirts who will help show us where to stand to watch the parade.

Lots of people at the parade will be wearing green clothes or funny hats or green decorations.  
I can wear these too but I don't have to.

There are no public toilets at the parade so I need to make sure I go before we leave the house to go to the parade

There will be bands and Fire Engines at the parade.

They will be much quieter when they are going through Sensory Street so there will not be any big loud noises that might startle me.

There will be lots of floats and people dressed up.

These will be really funny

We will clap and cheer all the people walking in the parade

If I do not like noise I will wear my ear defenders or my headphones.

When we are ready we will go home. We do not have to wait for the Parade to be over

Lots of people have worked very hard to make the Parade

Thank you for coming to the Parade we hope you enjoyed it.
